

August 1, 2016

To ASPE members,

Catamaran entered into an agreement in 2015 to be acquired by OptumRx. This was an opportunity to create significant additional value to clients and members. Seven Corners will be moving forward with adding the OptumRx logo on the ASPE ID cards in place of the Catamaran logo. No other changes will be needed. All pharmacy benefit information will remain the same and there will be no disruption to the pharmacy benefits.

The support we currently have in place to administer the pharmacy benefits will remain the same and there will be no changes to the plan. All pharmacy benefit information currently on the ID cards will remain unchanged such as the Bin#, Group# and ID# and contact information. The only change will be the logo branding from Catamaran to the new OptumRx logo. The current ASPE ID cards with the Catamaran logo can continue to be used through the member's term date. Any reissued ID cards will begin to have the new OptumRx logo. This translates into a seamless transition and no disruption to clients and member.

OptumRx and Catamaran will create significant value with their combined customer base beyond the scale and enhanced service resulting from integration of their businesses. This combination is expected to create a dynamic competitor in the PBM market. They share common values and a strong commitment to protecting and enhancing our customers' health and wellness.

We look forward to continuing to offer the best value and outcome for our clients.

Sincerely,  
Seven Corners, Inc.
